

IN THE SPECIFICATION:

Please amend the specification as follows:

Please amend the second paragraph on page 6, lines 14-17 in the DETAILED DESCRIPTION OF PREFERRED EMBODIMENTS as follows:

--A deflector plate 144 extends from a distal end of the deflector housing 142. The deflector plate 144 is displaced a relatively short distance from the distal face 108 of the discharge nozzle 120 to provide a space for initial mixing of the biological components dispensed from the two dispensing ports 110a, 110b. The deflector plate 144 is substantially parallel to the two dispensing ports 110a, 110b. Each of the two dispensing ports 110a, 110b is at an angle.--
